

Research Role Profile

Job Title:	Research Fellow A
-------------------	-------------------

Responsible to:	Head of research group, or principal investigator
------------------------	---

Responsible for:	Not applicable
-------------------------	----------------

Job Summary and Purpose:

To undertake research in accordance with the specified research project(s) under the supervision of the principal investigator.

Main Responsibilities/Activities

To undertake a range of research activities within a specified research area, assuming responsibility for specific areas of projects and making use of new research techniques and methods, in consultation with the research award holder or supervisor. This may include fieldwork, interviews, laboratory experimentation, critical evaluation and interpretation, computer-based data analysis and evaluation or library research.

Using initiative and creativity to identify areas for research develop new research methods and extend the research portfolio. Analysing and interpreting results of own research. Write up results and prepare papers for submission to appropriate journals and conferences, and other outputs as required and/or appropriate. Attend appropriate conferences for the purpose of disseminating research results of personal development. The post holder may also contribute to writing bids for research grants and will contribute to collaborative decision making with colleagues in areas of research.

Continually to update knowledge and develop skills, and translate knowledge of advances in the area into research activity.

To plan and manage own research activity in collaboration with others. To carry out administrative tasks associated with specified research funding, for example risk assessment of research activities, organisation of project meetings and documentation. Implementation of procedures required to ensure accurate and timely formal reporting and financial control.

To contribute to teaching in the Faculty by carrying out student supervision and/or demonstrating within the post holder's area of expertise and under the direct guidance of a member of departmental academic staff, as appropriate.

The post holder may occasionally be required to supervise more junior research staff.

Research Role Profile

Person Specification

The post holder must have:

A doctoral degree in a relevant discipline (although individuals who have almost completed a doctoral degree may be appointed). Consideration may also be given to individuals who do not hold a doctoral degree but have required skills based on a number of years experience in specified / relevant fields

The post holder will have authority over some aspects of project work and must be capable of providing academic judgement, offering original and creative thoughts and be able to interpret and analyse results.

Relationships and Contacts

Direct responsibility to the principal investigator or academic supervisor. The post holder may be asked to serve on a relevant Faculty committee. There may be additional reporting and liaison responsibilities to external funding bodies or sponsors. The post holder may work on original research tasks with colleagues in other institutions.

Special Requirements

To be available to participate in fieldwork as required by the specified research project

All staff are expected to:

- Positively support equality of opportunity and equity of treatment to colleagues and students in accordance with the University of Surrey Equal Opportunities policy.
- Help maintain a safe working environment by:
 - Attending training in Health and Safety requirements as necessary, both on appointment and as changes in duties and techniques demand
 - Following local codes of safe working practices and the University of Surrey Health and Safety Policy
- Undertake such other duties within the scope of the post as may be requested by your Manager.

Research Role Profile

Addendum to Role Profile

Job Title: Research Fellow in Electrospinning of fibre porous filters	Research Fellow (1A)
--	----------------------

Job Summary and Purpose:

This information sheet should be read in conjunction with the accompanying generic Research RA1A Role Profile and will be used for shortlisting processes. More specifically the post holder will be expected to:

The project is funded by EPSRC and aims at the development of innovative, low-cost, mass-produced, environmentally-friendly filters and masks protecting against COVID-19 and other related airborne viruses. Our project aims at lowering the cost and developing a roll-to-roll process of additive manufacturing using low-cost, abundant and environmentally-friendly materials.

Main Responsibilities/Activities

- [1] Carry out molecular simulations (MD and DFT) of proteins or other polymers and small species and determining the interaction terms between atomic and continuum macroscale level models
- [2] Interact with collaborators and students in most appropriate and professional manner
- [3] Write report on your work.
- [4] Maintain confidentiality and respect the policy for confidentiality of the project, in particular before any publications or conference presentations.
- [5] Write and publish research papers in high reputation/high impact journals.
- [6] Give presentations at international conferences.

Person Specification

The post holder must have:

1. A first degree in Materials, Biological Sciences, Engineering or Physics.
2. A PhD or an EngD or equivalent work experience in the areas of molecular modelling
3. Research expertise in molecular modelling: molecular dynamics (MD) and DFT simulations
4. Being able to start immediately as this is under the Rapid-Response Call regarding COVID-19 pandemic. For this reason, we shall not be able to await for visas and any other certificates if required before start.

Experience in MOE software and running simulations on Archer 2 would also be useful.

Relationships and Contacts

Research Role Profile

The post will be in the Department of Mechanical Engineering Sciences (prime investigator and line manager: Professor Tina Lekakou, email: C.Lekakou@surrey.ac.uk)
