Background Information

The Higher Education Outreach Network (HEON), is a partnership consisting of The University of Surrey, University for the Creative Arts, Farnborough College of Technology, Royal Holloway, University of London, Activate Learning, North East Surrey College of Technology (NESCOT), Surrey Sports Park, Brooklands College, the University of Law Ltd, and the Academy of Contemporary Music. HEON operates with equal input from the partner institutions via the HEON Steering Group, and HEON funded roles at certain partner institutions.

HEON is part of the national Uni Connect Programme, funded by the Office for Students (OfS). Uni Connect brings together 29 partnerships of universities, colleges and other local partners to offer impartial activities, advice and information on the benefits and realities of going to university or college. Uni Connect is a fixed term collaborative project, funded until July 31, 2025.

HEON's central team is situated within the Widening Participation & Success Department, which is part of the Chief Student Officer Directorate. The WP & Success Department includes approximately 15 members of staff across a range of student engagement services (Student Success & EDI, Widening Participation, and the Higher Education Outreach Network). The Chief Student Officer Directorate serves to provide a joined-up and effective service to students across their student journey at the University: from pre-enrolment to graduation, with an excellent student experience as its primary focus. We ensure that students receive excellent support and advice and feel a sense of belonging to the University of Surrey community, and work against the key principles in our student and staff partnership manifesto.

HEON's programme directly supports the OfS' Uni Connect Programme objectives to:

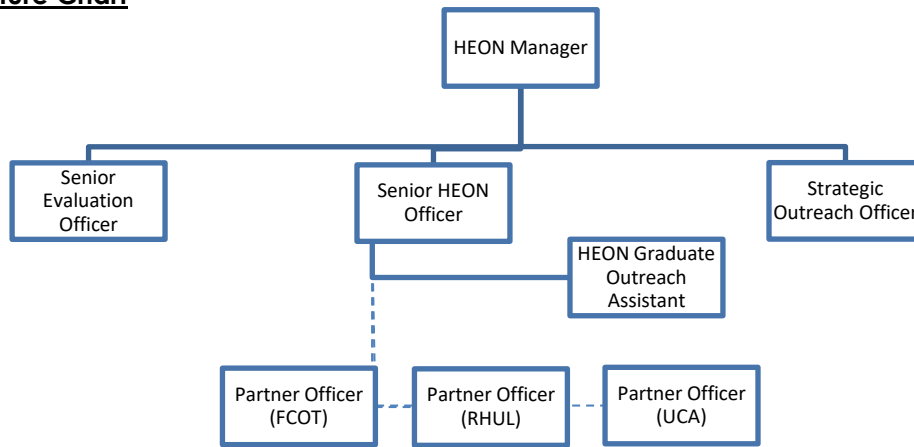

- Contribute to reducing the gap in higher education participation between the most and least represented groups
- Equip young people from underrepresented groups to make an informed choice about their options in relation to the full range of routes into and through higher education and to minimise the barriers they may face when choosing the option that will unlock their potential, including barriers relating to academic attainment
- Support a strategic local infrastructure of universities, colleges and other partners that can cut through competitive barriers, offer an efficient and low-burden route for schools and colleges to engage with outreach, for schools to engage with attainment raising activity, and to address outreach 'cold spots' for underrepresented groups
- Contribute to a stronger evidence base around 'what works' in higher education outreach and strengthen evaluation practice across the sector.

HEON has 4 strands of work that contribute towards these aims:

- 1) Targeted Outreach – Sustained and Progressive programme of outreach activity for students in years 10-13 who live in identified target postcodes (POLAR quintile 1 areas)
- 2) Strategic Outreach – Mapping gaps in the local outreach provision and working to fill them
- 3) Signposting – enabling schools and colleges to find and access available outreach
- 4) Attainment-Raising – A new priority for the programme and for HE provider access work, collaboratively developing a programme to impact raising attainment in local schools.

Our award-winning, welcoming team are committed to providing inclusive and meaningful change for under-represented students. The post holder will work directly on projects for under-represented learners in schools and within the community. Experience of working with or lived experience of being from an under-represented group would be an asset to our team.
