

<b>Job Title:</b>	Research Fellow A
-------------------	-------------------

<b>Responsible to:</b>	Head of research group, or principal investigator
------------------------	---

<b>Responsible for:</b>	Not applicable
-------------------------	----------------

<b>Job Summary and Purpose:</b>
---------------------------------

To undertake research in accordance with the specified research project(s) under the supervision of the principal investigator.
---

<b>Main Responsibilities/Activities</b>
---

- To undertake a range of research activities within a specified research area, assuming responsibility for specific areas of projects and making use of new research techniques and methods, in consultation with the research award holder or supervisor. This may include fieldwork, interviews, laboratory experimentation, critical evaluation and interpretation, computer-based data analysis and evaluation or library research.
- Using initiative and creativity to identify areas for research develop new research methods and extend the research portfolio. Analysing and interpreting results of own research. Write up results and prepare papers for submission to appropriate journals and conferences, and other outputs as required and/or appropriate. Attend appropriate conferences for the purpose of disseminating research results of personal development. The post holder may also contribute to writing bids for research grants and will contribute to collaborative decision making with colleagues in areas of research.
- Continually to update knowledge and develop skills and translate knowledge of advances in the area into research activity.
- To plan and manage own research activity in collaboration with others. To carry out administrative tasks associated with specified research funding, for example risk assessment of research activities, organisation of project meetings and documentation. Implementation of procedures required to ensure accurate and timely formal reporting and financial control.
- To contribute to teaching in the Faculty by carrying out student supervision and/or demonstrating within the post holder's area of expertise and under the direct guidance of a member of departmental academic staff, as appropriate.
- The post holder may occasionally be required to supervise more junior research staff.

### **Person Specification**

#### **The post holder must have:**

A doctoral degree in a relevant discipline (although individuals who have almost completed a doctoral degree may be appointed). Consideration may also be given to individuals who do not hold a doctoral degree but have required skills based on a number of years experience in specified / relevant fields

The post holder will have authority over some aspects of project work and must be capable of providing academic judgement, offering original and creative thoughts and be able to interpret and analyse results.

### **Relationships and Contacts**

Direct responsibility to the principal investigator or academic supervisor. The post holder may be asked to serve on a relevant Faculty committee. There may be additional reporting and liaison responsibilities to external funding bodies or sponsors. The post holder may work on original research tasks with colleagues in other institutions.

### **Special Requirements**

To be available to participate in fieldwork as required by the specified research project

#### **All staff are expected to:**

- Positively support equality of opportunity and equity of treatment to colleagues and students in accordance with the University of Surrey Equal Opportunities policy.
- Help maintain a safe working environment by:
  - Attending training in Health and Safety requirements as necessary, both on appointment and as changes in duties and techniques demand
  - Following local codes of safe working practices and the University of Surrey Health and Safety Policy
- Undertake such other duties within the scope of the post as may be requested by your Manager.

<b>Addendum</b>	
This document provides additional information relating to both specific aspects of the post/faculty and any post specific person specification criteria. The information contained within this document should always be read in conjunction with the accompanying generic Role Profile.	
<b>Job Title:</b>	PD Research Fellow in Cardiac Electrophysiology
<b>Job Purpose and Summary</b>	
<b>Main Responsibilities/Activities</b>	
Laboratory animal – handling, surgery and record keeping	
Electrophysiology experiments – path clamp, microelectrode studies, optogenetics	
Molecular experiments – PCR, Western Blots, RNA extraction, Immunofluorescence studies, histology experiments	
Biophysics and Bioinformatics analysis	
Manuscript preparation	
<b>Person Specification</b>	
This section describes the sum total of knowledge, experience & competence required by the post holder that is necessary for standard acceptable performance in carrying out this role. This is in addition to the criteria contained within the accompanying generic Role Profile.	
	<b>Essential/ Desirable</b>
A degree in a relevant biomedical and clinical discipline	Essential
A PhD in a relevant discipline – electrophysiology, cardiology, biophysics	Essential
Technical competency: Evidence of laboratory experience in electrophysiology techniques	Essential
Technical competency: Evidence of large data analysis using R or other relevant analytical tool	Essential
Publication Record: at least two previous first author publication in a relevant field	Desirable
<b>Background Information</b>	
This should be read in conjunction with those contained within the accompanying generic Role Profile.	

**Special Requirements**

On site requirement in Guildford. No remote working opportunity.

**Background information**

**N.B. The above list is not exhaustive.**
