Faculty/Administrative/Service Department	Procurement		
Job Title	Procurement Category Manager – IT/Digital		
Job Family	Professional Services	Job Level	Level 5
Responsible to	Director of Procurement		
Responsible for (Staff)	No direct staff		
<u>Job Purpose Statement</u>			
<p>The Procurement Category Manager for IT and Digital will play a key role in developing and delivering the University's procurement strategy for IT, digital, and technology-enabled services. The role focuses on securing value for money, managing commercial and delivery risk, and building effective supplier partnerships that support the University's ambitious digital plans and long-term operational resilience.</p> <p>A core element of the role is close collaboration with IT Services, digital teams, project leads, and senior stakeholders to understand technical, operational, and strategic requirements. This enables the delivery of fit-for-purpose procurement solutions that support service reliability, cyber resilience, innovation, and scalability. The role requires a strong understanding of IT and digital procurement, including software licensing, cloud and hosting services, infrastructure, hardware, applications, and managed services.</p> <p>While the primary focus is IT and digital categories, the role may also support wider University procurement initiatives where technology is a key enabler. Flexibility of approach is essential, along with the ability to provide clear commercial leadership and work collaboratively with internal project teams, technical experts, IT colleagues, finance and cost management colleagues, and other senior stakeholders to define and deliver successful outcomes.</p>			
<u>Key Responsibilities</u> This document is not designed to be a list of all tasks undertaken but an outline record of the main responsibilities			
<p>The post holder will:</p> <ol style="list-style-type: none"> Develop and deliver the IT & Digital category strategy Own and implement procurement strategies across IT and digital categories, including software, cloud and hosting services, infrastructure, hardware, applications, and managed services, aligning commercial outcomes with the University's Digital Plan, cyber resilience objectives, and financial priorities. Establish and manage effective frameworks and commercial models Lead the review, development, and mobilisation of framework agreements and commercial models to support core IT services, cloud adoption, digital transformation programmes, and technology-enabled projects, ensuring they are commercially robust, scalable, and straightforward for stakeholders to use. Provide commercial leadership and stakeholder influence Act as a trusted commercial advisor to IT and Digital leadership, influencing decision-making, constructively challenging technical and commercial assumptions, and translating digital, cyber, and business requirements into practical and sustainable sourcing solutions. Lead complex sourcing, tendering, and negotiations Manage high-value and strategically critical IT and digital procurements, including competitive tenders and direct awards where appropriate, delivering outcomes that balance cost, service performance, cyber risk, resilience, and long-term value. Drive commercial value and performance improvement Deliver tangible financial benefits, service efficiencies, and risk reduction through effective sourcing, proactive supplier management, and robust tracking of commercial, operational, and cyber-related outcomes. Improve supplier management, standardisation, and systems Lead supplier rationalisation and standardisation across IT and digital services, including cloud platforms and SaaS solutions, where appropriate, and promote effective use of eProcurement and contract management tools to improve visibility, compliance, and ease of use. 			

7. Ensure governance, contracts, and capability development

Maintain strong procurement governance and ethical standards, improve contract visibility and lifecycle management, and support capability development across IT and Digital teams through guidance, training, and best practice, with particular emphasis on cyber security, data protection, and supplier risk management.

N.B. The above list is not exhaustive.

All staff are expected to:

- Positively support equality of opportunity and equity of treatment to colleagues and students in accordance with the University of Surrey Equal Opportunities Policy.
- Work to achieve the aims of our Environmental Policy and promote awareness to colleagues and students.
- Follow University/departmental policies and working practices in ensuring that no breaches of information security result from their actions.
- Ensure they are aware of and abide by all relevant University Regulations and Policies relevant to the role.
- Undertake such other duties within the scope of the post as may be requested by your manager.
- Work supportively with colleagues, always operating in a collegiate manner.

Help maintain a safe working environment by:

- Attending training in Health and Safety requirements as necessary, both on appointment and as changes in duties and techniques demand.
- Following local codes of safe working practices and the University of Surrey Health and Safety Policy.

Elements of the Role

This section outlines some of the key elements of the role, which allow this role to be evaluated within the University's structure. It provides an overview of what is expected from the post holder in the day-to-day operation of the role.

Planning and Organising

The post holder:

- Has discretion to take a proactive approach to achieve desired results. They will work in a relatively independent manner, organising and prioritising their work in order to deliver an effective and professional service.
- Is expected to provide a professional and timely procurement service to internal customers whilst balancing multiple projects and deadlines to ensure procurement efficiency and value optimisation.

Problem Solving and Decision Making

The post holder:

- Must have good understanding of external and internal procurement related legislation and University policies and procedures, guiding colleagues to ensure compliance.
- Will provide advice and solutions to routine day-to-day problems, drawing on their previous experience and technical knowledge of similar problems or through referring to and applying procurement processes, policies, and procedures.
- Will resolve procurement challenges by negotiating solutions that meet both operational needs and financial objectives.

Continuous Improvement

- A significant part of the role is to be the functional procurement expert, driving improvement in procurement processes and practices across sourcing, tendering, contracting, contract management, vendor reduction initiatives and eProcurement efficiencies.
- The post holder should look to implement best practices in category management and supplier relationship management, and to promote innovation in procurement processes to improve service delivery and cost savings.

Accountability

The post holder:

- Must ensure procurement activities comply with internal policies and external funding regulations where applicable.
- Take ownership of category performance, ensuring value for money and measurable outcomes.
- Act as a key advisor to IT stakeholders on procurement best practices.

<p>Dimensions of the role The post holder should:</p> <ul style="list-style-type: none"> Influence procurement decisions across a wide range of IT and Digital spend categories. This Job Purpose reflects the core activities of the post. As the Department/Faculty and the post holder develop, there will inevitably be some changes to the duties for which the post is responsible, and possibly to the emphasis of the post itself. The University expects that the post holder will recognise this and will adopt a flexible approach to work. This could include undertaking relevant training where necessary.

Should significant changes to the Job Purpose become necessary, the post holder will be consulted and the changes reflected in a revised Job Purpose.

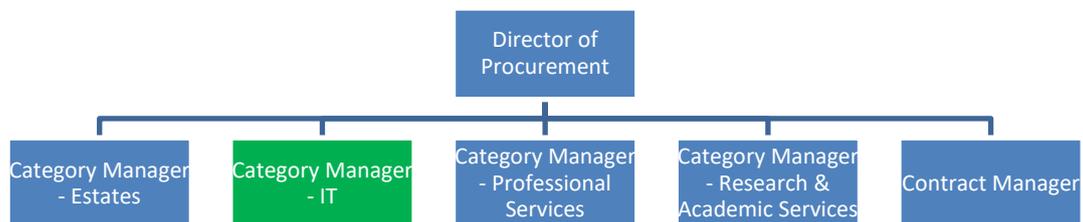

Organisational/Departmental Information & Key Relationships

Background Information

The Procurement team sits within the wider Finance department of the University, a critical professional services function. It is a lean, strategic function focused on whole life costs, realising value beyond cost savings, and building sustainable partnerships with suppliers.

Procurement's mission statement is to deliver an effective, innovative, and integrated strategic procurement function at University of Surrey, providing exceptional collaboration and partnering to stakeholders to respond to their business needs and challenges, delivering optimal value for money and cost-effective solutions.
