To carry out administrative tasks associated with specified research funding, for example risk assessment of research activities, organisation of project meetings and documentation. Implementation of procedures required to ensure accurate and timely formal reporting and financial control.</p> <p>To contribute to teaching in the Faculty by carrying out student supervision and/or demonstrating within the post holder's area of expertise and under the direct guidance of a member of departmental academic staff, as appropriate.</p> <p>The post holder may occasionally be required to supervise more junior research staff.</p> |

## Research Role Profile

### Person Specification

#### The post holder must have:

A doctoral degree in a relevant discipline (although individuals who have almost completed a doctoral degree may be appointed). Consideration may also be given to individuals who do not hold a doctoral degree but have required skills based on a number of years experience in specified / relevant fields

The post holder will have authority over some aspects of project work and must be capable of providing academic judgement, offering original and creative thoughts and be able to interpret and analyse results.

### Relationships and Contacts

Direct responsibility to the principal investigator or academic supervisor. The post holder may be asked to serve on a relevant Faculty committee. There may be additional reporting and liaison responsibilities to external funding bodies or sponsors. The post holder may work on original research tasks with colleagues in other institutions.

### Special Requirements

To be available to participate in fieldwork as required by the specified research project

#### All staff are expected to:

- Positively support equality of opportunity and equity of treatment to colleagues and students in accordance with the University of Surrey Equal Opportunities policy.
- Help maintain a safe working environment by:
  - Attending training in Health and Safety requirements as necessary, both on appointment and as changes in duties and techniques demand
  - Following local codes of safe working practices and the University of Surrey Health and Safety Policy
- Undertake such other duties within the scope of the post as may be requested by your Manager.

| Job Title: | Research Fellow (1A) |
|------------|----------------------|

### Job Summary and Purpose:

This information sheet should be read in conjunction with the accompanying generic Research RA1A Role Profile and will be used for shortlisting processes. More specifically the post holder will be expected to:

### Main Responsibilities/Activities

- To propose and develop novel methodologies for selecting optimal cyber security and privacy controls in the H2020 CUREX (“seCure and pRivate hEalth data eXchange”) project use cases.
- To contribute and lead the preparation of project deliverables.
- To collaborate with CUREX partners towards providing contributions to the following project tasks:
  - Cyber security risk assessment
  - Privacy risk assessment
- To participate in physical meetings around Europe, to attend and occasionally lead weekly teleconferences of the project.
- To disseminate project results in international conferences and journals.
- To mentor research interns, MSc and PhD students when appropriate to contribute to the project.

### Person Specification

#### The post holder must have:

We are looking for applicants who hold, or are near completion of, a PhD in a relevant subject. (Relevant professional experience may be considered.) The successful applicant will demonstrate experience and knowledge of **at least one** of the following areas:

- Vulnerability Assessment
- Information Security Management
- Mathematical optimisation/Game theory
- Decision Support Systems

Software implementation skills are highly desirable to simulate the proposed methodologies before integrating them to the CUREX platform but synergies with industrial partners will support such integration. There is no requirement for working in a specific programming language as long as these methodologies can be evaluated as required.
